JANUARY – JUNE 2019

OSPREY

PUBLISHING

Greetings from Osprey!

The first half of 2019 sees a potent mix of exciting books from new Osprey authors, as well as the return of some old favourites. Starting off the year we delve into Angus Konstam's cut-and-thrust history of piracy with *The Pirate World* (page 1) and renowned weapons expert Mike Loades' stunning new book *War Bows* (page 2). We have Thomas McKelvey Cleaver's new Korean War title *Holding the Line* (page 3), William Shepherd's long-awaited *The Persian War* (page 4) as well as two stunning large illustrated naval titles in *The Cold War Fleet* (page 6) and *German Submarine U-1105 'Black Panther'* (page 7).

Our two new aviation series Air Campaign and X-Planes are now fully in their stride, each hitting their tenth title in this catalogue, and continue to sell well. They have now joined our cohort of other established series, from Campaign and Men-at-Arms to Duel and Weapon, which all have a fantastic range of new titles coming out. You can find new books in all of these series between pages 12 and 21 in this catalogue, with a full stocklist of the span on page 32.

February 2019 will see Osprey Games release *Judge Dredd: The Cursed Earth* (page 23), a brand-new card game based on the popular graphic novel series, whose game mechanics are based on those of Osprey's best-selling title *The Lost Expedition*. Sticking with the sci-fi and fantasy theme, we also have *Jonathan Strange & Mr Norrell: A Game of English Magick* (page 24) coming out in June, and a new expansion to *Wildlands* (page 25) in May.

As always, you can find a full stocklist of all our available backlist titles, as well as a digital version of this catalogue at www.ospreypublishing.com/stocklist

Air Combat

Dogfights of World War II

Edited by Tony Holmes

The most dramatic aviation duels of World War II.

The battle for the skies in World War II fuelled a race between rival air forces to develop ever faster and more capable fighter aircraft – and the struggle for air superiority was never over until the war itself ended. Richly illustrated throughout with stunning artwork and photographs, *Air Combat* tells the full story of four of the war's most dramatic duels, from the Spitfire fighting the formidable Bf 109 over the English Channel, the Fw 190 battling the Soviet La 5 and 7 on the Eastern Front, the F4F Wildcat clashing with the legendary A6M Zero-sen, and the F4U Corsair in combat with the Ki-84 in the Pacific.

The Pirate World

A History of the Most Notorious Sea Robbers

Angus Konstam

A unique exploration of the pirate world.

Often romanticised in print and on the silver screen, real-life pirates were a brutal menace that plagued the high seas. Angus Konstam separates myth from reality, tracing the history of piracy through the centuries, from the pirates who plagued the Ancient Egyptians to the Viking raids and on to the era of privateers. He goes on to discuss the so-called 'Golden Age of Piracy' and colourful characters such as Blackbeard and Captain Kidd, before examining the West's initial encounters with Eastern pirates off the Chinese coast and the phenomenon of the modern pirate. Highly illustrated with colour images and cartography throughout and written by an expert on the subject, this is a fascinating exploration of the world of piracy.

Angus Konstam is an acclaimed author who has written widely on naval history, from *Sovereigns of the Seas* and *Piracy: The Complete History* to his most recent bestseller, *Jutland 1916: Twelve Hours to Win the War*. A former naval officer and museum professional, he worked as the Curator in the Royal Armouries, Tower of London and the Mel Fisher Maritime Museum in Key West, Florida. He now works as a full-time author and historian, and lives in Edinburgh, Scotland.

War Bows

Longbow, crossbow, composite bow and Japanese yumi

Mike Loades

A fascinating and lively history of four bows that changed warfare.

War bows dominated battlefields across the world for centuries, allowing trained archers to take down well-armoured targets from great distances. Weapons expert Mike Loades reveals the full history of four iconic bows: the versatile composite bow which was used on foot and horseback for a thousand years, the iconic longbow which clashed with the more technologically sophisticated crossbow, and the samurai bow, the yumi. Complete with modern ballistics testing, action recreations of what it is like to fire each bow and a critical analysis of the technology and tactics associated with each bow, this book is a must-have for anyone interested in ancient arms.

Mike Loades is a respected author, broadcaster, director and action arranger who has made numerous television appearances as a historical weapons expert and military historian. He lives in California. He is the author of *Swords and Swordsmen* (2010), *The Longbow* (2013), *The Composite Bow* (2016), and *The Crossbow* (2018).

Pilgrim Days

From Vietnam to the SAS

Alastair MacKenzie

The unique experiences of a Special Forces soldier who served in Vietnam, Northern Ireland, South Africa and Oman.

'We are the Pilgrims, master; we shall go, Always a little further; it may be, Beyond that last blue mountain barred with snow.'

If there was ever anyone who went a little further, a little beyond, it was Alastair MacKenzie. In a career spanning 30 years, he served uniquely with the New Zealand Army in Vietnam, the British Parachute Regiment, the SAS, the South African Defence Force's famed ParaBats and the Sultan of Oman's Special Forces. *Pilgrim Days* is the vivid story of man who lived a soldier's life to the full, serving across the world, from Vietnam and Angola to the streets of South Armagh in Northern Ireland.

Alastair MacKenzie comes from a military family of long standing and he served as a para-trained platoon commander for 12 months with the New Zealand infantry on combat operations in South Vietnam and in the special forces of South Africa, Oman and the UK, where for four years he was troop commander in the 22nd Special Air Service Regiment. He obtained his PhD in politics in 2005 and is the author of works including *Special Force: The Untold Story of 22nd Special Air Service Regiment* (SAS) and *The Sounds Soldiers' Memorial – Stories of the Fallen*. He lives on the South Island of New Zealand.

Holding the Line

The Naval Air Campaign In Korea

Thomas McKelvey Cleaver

The gripping story of Task Force 77, the US Navy carrier commitment that held the line against Chinese and North Korean forces.

Holding the Line chronicles the carrier war in the Korean War, showing how the United Nations' forces used naval and air superiority to negate the overwhelming Chinese advantage in manpower. In the so-called 'long hard slog', naval aviators sought to slow and cut off communist forces and support troops on the ground. All of this was accomplished with a force that was in the midst of change, as jet aircraft altered the entire nature of naval aviation. Written by naval aviation expert Thomas McKelvey Cleaver, this is the gripping story of how naval aviators helped push back the communist tide in Korea.

Thomas McKelvey Cleaver is the author of the well-received and best-selling *Fabled Fifteen: The Pacific War Saga of Carrier Air Group 15*, a history of the US Navy's top-scoring carrier air group in World War II, published by Casemate. He is additionally the author of *F4F and F6F Aces of VF-2* published by Osprey, and of *Pacific Thunder* (2017) and *Tidal Wave* (2018). He lives in Encino, California, USA.

Hitler's Death

The Case Against Conspiracy

Luke Daly-Groves

A revealing look at the mysterious death and mythology behind the 20th century's most destructive dictator.

Did Hitler shoot himself in the Führerbunker or did he slip past the Soviets and escape to South America? For many years, conspiracy theorists have led much of the debate surrounding Hitler's last days, while historians have argued over the limited forensic evidence. This book returns to the evidence of Hitler's suicide in order to scrutinise the arguments of conspiracy theorists using scientific methods. Through analysis of recently declassified MI5 files, previously unpublished sketches of Hitler's bunker, personal accounts of intelligence officers along with stories of shoot-outs, plunder and secret agents, this rigorously researched book takes on the doubters to tell the full story of how Hitler died – and where it happened.

Luke Daly-Groves is a PhD Researcher based at the University of Leeds. This book is an adaptation of his award-winning BA thesis completed at the University of Central Lancashire for which he achieved First-Class Honours. In 2016 he obtained an MA in Modern History with high distinction for his Master's thesis at the University of Leeds. His doctoral research analyses the activities of Anglo-American intelligence in post-war Germany.

Audacious Missions of World War II

The National Archives

A series of daring missions from World War II, revealed through letters and documents from the main protagonists.

Winning the World War II was about more than military force. It required guile, and tremendous acts of bravery by Special Forces and intelligence operatives who had the odds stacked against them. Using hundreds of documents and images from The National Archives, including some that have never been seen in print before, this book reveals some of World War II's most audacious missions.

These include the plot to assassinate Hitler; Operation *Frankton*, where commandos paddled 100 miles upriver in canoes to Bordeaux to blow up Axis shipping; and Operation *Fortitude* where a phantom US army of inflatable tanks was planted in Kent, fooling Hitler into thinking D-Day would occur at Calais.

The National Archives at Kew is the repository of documents that record the history of the UK. Events revealed through these papers are both large and small, ranging from momentous political events to day to day happenings in the lives of ordinary individuals.

The Persian War

A military history

William Shepherd

The enthralling story of the triumph of Greece over the mighty Persian Empire.

The victory of a few Greek city-states over the world's first superpower was an extraordinary military feat that secured the future of western civilization. All modern accounts of the war as a whole, and of Marathon, Thermopylae and Salamis, the best-known battles, depend on the ancient sources, foremost amongst them Herodotus, but generally quote very little from them. This is the first book to bring together Herodotus' entire narrative and interweave it with other ancient voices to present the original texts that comprise almost all that is known about this immense clash of arms.

William Shepherd studied classics at Clare College, Cambridge, in the 1960s and then embarked on a career in publishing, which finally brought him to Osprey, where he retired as chief executive in 2007. He is author of *The Persian War* (Cambridge, 1982), translated from Herodotus. He has also written reading books for children, articles in the *Osprey Military Journal*, of which he was joint editor, and *Salamis 480 BC*, *Plataea 479 BC* and *Pylos and Sphacteria 425 BC*, all for Osprey. He lives in the Cherwell Valley, north of Oxford.

AIR VANGUARD

Air Vanguard is the technical aviation series that appeals to warplane enthusiasts across the world. Each title gives a concise history of an aircraft, detailing its design, development and deployment.

AVIATION ELITE UNITS

Aviation Elite Units provide a full combat history of a fighter or bomber unit that earned particular distinction in action, featuring at least 30 specially commissioned aircraft profile drawings and illustrated throughout with contemporary photographs.

BATTLE ORDERS

Battle Orders studies the organization, actions and strength of a major unit in battle, describing elements of doctrine, training, tactics, equipment and deployment. Developed by military professionals, academics, and strategists, Battle Orders contain detailed orders of battle, tables of organization and equipment, maps, charts and contemporary photographs.

COMMAND

Throughout the history of warfare, individual commanders have dominated the battlefield and in so doing decided the fate of nations. The Command series looks at how these great leaders adopted revolutionary technology, battlefield tactics and training methods, or simply inspired their troops through their leadership skills to win victory.

ESSENTIAL HISTORIES

Essential Histories study the origins, politics, fighting and repercussions of major wars or theatres of war, from both military and civilian perspectives. Featuring full colour maps, diagrams and photography throughout, each book in Osprey's Essential Histories series provides a full visual appreciation what it was like to experience each war.

FORTRESS

Examines the history, evolution, military architecture and natural setting of some of the world's most important fortification systems from ancient times to the present day.

RAID

Raid delves into operations carried out by small units, Special Forces and counter-terrorist operatives, unveiling the background to and events of these engrossing stories. Its unique approach provides a detailed analysis of each raid, its successes and its failures, and uncovers the men behind the action.

WARRIOR

The Warrior series opens the door on the lives of the greatest soldiers of history, both on and off the battlefield. It reveals their experiences of training and preparation for war, the details of what it was like to fight alongside them in battle, and how they prepared for, and recovered from, war.

Illustrator: **Yann Tisseron**

Available: **March 2019**

ISBN: **9781472830685**

Price: **£19.99 / US \$25 / CAN \$34**

Format: **Board Game**

The Adventuring Party has arrived, bringing four classic adventurers to the Wildlands. Play as a thief, a wizard, a cleric, and a barbarian, asserting your dominance over your opponents and immortalizing your status as fantasy favourites. A word of warning – these characters don't like to be left out, and will invade your game whether someone is playing them or not, stealing your crystal shards and punching anyone in their way.

This faction pack includes four unique miniatures and their activation deck, along with encounter rules for using this faction as non-player characters.

WILDLANDS: MAP PACK 1: THE WARLOCK'S TOWER & THE CRYSTAL CANYONS

Designer: **Martin Wallace**

Illustrator: **Wietse Treurniet**

Available: **May 2019**

ISBN: **9781472836182**

Price: **£14.99 / US \$20 / CAN \$27**

Format: **Board Game**

Travel deep into the Wildlands with this new set of maps. Introduce further wrinkles to your game via magical portals which help you rush around the map, or fissures which will slow your progress. Players will have to adapt to their new surroundings if they ever hope to get ahead.

This map expansion for *Wildlands* adds a new double-sided board to the game, featuring new opportunities and obstacles, and can be used in conjunction with the faction expansions.

FROSTGRAVE

FROSTGRAVE: THE WIZARDS' CONCLAVE

Authors: **Joseph A. McCullough
& Others**
Illustrators: **Kate & Dmitry Burmak**
Available: **February 2019**
ISBN: **9781472824059**
Price: **£14.99**
US \$25 / CAN \$34
Format: **Paperback**

Wizards tend to be secretive and solitary, rarely sharing their knowledge, and associating with only a select few apprentices, followers, and henchmen. It is rare that they spend time in the company of other spellcasters, and rarer still that they work together. Now, however, something is about to take place that has not occurred since the great days of Felstad – a gathering of wizards.

In this new supplement for *Frostgrave*, some of the biggest names in gaming turn their creative powers towards the Frozen City, each contributing a scenario and adding their own flair to the game. Featuring scenarios by Alessio Cavatore, Alex Buchel, Andy Chambers, Gav Thorpe, Chris Pramas, Daniel Mersey, Andrea Sfiligoi, and many more, this tome provides a collection of adventures that will pit players against unimaginable foes and challenges, pushing their wizards and warbands to new limits.

FROSTGRAVE: GHOST ARCHIPELAGO: CITIES OF BRONZE

Author: **Joseph A. McCullough**
Illustrators: **Kate & Dmitry Burmak**
Available: **June 2019**
ISBN: **9781472832795**
Price: **£14.99**
US \$25 / CAN \$34
Format: **Paperback**

The islands of the Ghost Archipelago are covered in the ruins of ancient civilizations, but there is one group whose culture still thrives and whose power still grows – the Dricheans. Divided into many small kingdoms and city-states that wage near-constant war with snake-men, native tribes, and with each other, the Dricheans are renowned for the gleaming bronze of their weapons and armour, and their martial prowess. Organized and militaristic, these formidable warriors pose a new threat to adventurers exploring the Lost Isles.

This supplement for *Frostgrave: Ghost Archipelago* examines the scattered realms of the Dricheans, presenting players with three new mini-campaigns featuring these bronze-armed warriors. Also included are optional rules for using Drichean Heritors, Wardens, and Crew, and guidelines for creating your own Drichean kingdoms.

Hyper-reality. The area between the thriving mass of humanity known as the Sprawl and the digital refuge of Cyberspace.

This is your playground. As a data-jack, you can see and manipulate the flow of digital data through the real world – for you, reality is limitless.

REALITY'S EDGE

CYBERPUNK SKIRMISH RULES

Welcome to *Reality's Edge*, a wargame so shiny you are going to need mirror shades. Set in a dystopian cyberpunk future, players take on the role of a data-jack, a mercenary hacker who leads a small team of trusted operatives and disposable freelancers. Funded by shadow backers, the data-jacks accept jobs from faceless clients for profit, glory, and better chrome...always better chrome.

Battles take place in the concrete jungle known as the Sprawl, but data-jacks must remain wary of the threat posed by Cyberspace. Hacking rules are pivotal to the game, with data nodes, robots, machines, and even enemy chrome presenting potential targets for a cunning data-jack. No-one plugged into Cyberspace is entirely safe from intrusion, and the electronic sprites and digital djinn you can deploy alongside your team can be just as dangerous as any mercenary or assassin.

Gameplay focuses on individual characters, with each skirmish offering you the opportunity to earn experience and equipment for your data-jack and operatives. A wide range of items and upgrades are available, from advanced weaponry and synthetics through to cyber-implants, biological enhancements, clones, and much more. This is a world obsessed with whether something can be done, not whether it should.

RAGNAROK

The end of the Aesir has come, but not as the prophecies foretold. The dread dragon Nidhogg has devoured the roots of the World Ash, Yggdrasil, and the great tree has toppled onto its side, crashing the realms of mortal and supernatural together. With the gods dead and the fires of ruin consuming the world, your war clan of Viking warriors know what they must do to survive the destruction of the Nine Realms and restore order: they must become the new gods!

Ragnarok is a campaign-driven skirmish game in which players form a Viking war clan seeking to prove itself worthy of becoming the new pantheon. The use of a mechanic called Godspark means that battles are no longer determined by merely striking an opponent and dealing damage. Instead, warriors will be pushing, throwing, and crashing their opponents around the battlefield, making their very environment a weapon. As the war clans develop, they may gain glorious new powers that will bring them closer to godhood, or win the respect of the denizens of the realms, allowing them to bring dire wolves, dwarves, and even the dreaded giants into their war clans. With strategic gameplay and epic storytelling, players must write their own sagas and tell of how their war clans have, through blood and steel, clawed their way up from ruin to stand before the halls of Valhalla.

Beginning in 1950, the Korean War was a defining moment for the UN and the entirety of the early Cold War, widening the already monumental gulf between the east and west, capitalist and communist. This supplement for *Bolt Action* expands the rules-set from its World War Two roots to this new, and truly modern, conflict. *Bolt Action: Korea* contains all the rules, Theatre Lists, scenarios, and new and exciting units, never seen in *Bolt Action* before, to wargame this turbulent period of world history.

GREAT WAR

Author: Battlefront Miniatures
Available: March 2019
ISBN: 9781472830364

Price: £29.99 / US \$40 / CAN \$54
Format: Hardback

1918 saw great changes in the warfare of the Western Front in France and Belgium. The Germans moved 500,000 men from the Eastern Front after the Russians pulled out of the war, and launched a series of offensives to break the Allied lines between March and July 1918. Great gains were made and the Allies' positions were pushed back huge distances, but through tenacious defence and the timely allocation of reserves the British, French, and Americans were finally able to halt the German progress. They immediately launched a series of offensives to push their enemy back towards their own borders, and ultimately to their defeat.

Great War gives you have everything you need to take command of one of these forces. Building on the success of Battlefront's *Flames of War*, these easy-to-learn rules and forces will get you on the battlefield in no time. Scenarios, missions, and notes on terrain to fully brief you before you step up the ladder and out of your trench, to advance across no-man's-land and into the green fields beyond!

OSPREY WARGAMES

REBELS AND PATRIOTS

Author: **Michael Leck & Daniel Mersey** Price: **£12.99 / US \$20 / CAN \$27**
Availability: **January 2019** Format: **Paperback**
ISBN: **9781472830227**

From the first shots at Jumonville Glen to the surrender at Appomattox, *Rebels and Patriots* allows you to campaign with Wolfe or Montcalm, stand with Tarleton at Cowpens or Washington at Yorktown, or don the blue or grey to fight for Grant or Lee. From the French and Indian War, through the War of Independence and the War of 1812, to the Alamo and the American Civil War, these rules focus on the skirmishes, raids, and small engagements from this era of black powder and bayonet.

Your Company is commanded by your Officer during these tumultuous conflicts. Each battle that your Officer faces allows him to develop new and interesting traits. Does he perform heroically and earn a *nom de guerre*? Or falter, to be forever known as a yellow-belly? Designed by Michael Leck and Daniel Mersey, with a core system based on the popular *Lion Rampant* rules, *Rebels and Patriots* provides all the mechanics and force options needed to recreate the conflicts that forged a nation.

MEN OF BRONZE

Author: **Eric Farrington** Price: **£12.99 / US \$20 / CAN \$27**
Availability: **April 2019** Format: **Paperback**
ISBN: **9781472832610**

Men of Bronze is a wargame that allows you to play out Classical Greek hoplite battles on the tabletop. Players are Strategoi (generals) leading phalanxes of bronze-clad warriors in pursuit of fame, glory, and the honor of their city-states. To win such prizes, however, you must prove your mettle, display your valor, and bring the other Strategoi to their knees!

Designed to recreate small battles or larger skirmishes with 50–80 figures per side, each army will have its own unique mix of rules, advantages, backgrounds, and abilities. Strategoi must understand and appreciate the strengths and weaknesses of their forces in order to win glory on the battlefield. Of course, there's no telling what tricks a rival Strategos might have up their tunic sleeves...
