RUTH VEEVERS

AND

HAL DUNCAN

ILLUSTRATED BY

KWANCHAI MORIYA

There's something hiding among us: an elusive cryptid is prowling our city streets. The evidence is clear but, without definitive proof, the scientific community will never believe you. There's nothing else to be done – you must track down this cryptid yourself!

Available: May 2022 ISBN: 9781472850072 Price: £65 / \$90 / CAN \$115 Format: Board Game

As the sun rises over the deserts, rivers, and oases of the Caliphate, a delicate balance has been upset. As one of many rival powers in the region, you now have the opportunity to alter the course of history and seize power for yourself.

The ambitious Sultan sits in a golden palace, presiding over great works of architecture. The secretive Murshid works to covertly undermine the central authorities through an expansive network of agents. The wandering tribes of the Nomad aim to sow discord in order to secure employment for their experienced mercenary citizenry. The ravaging forces of the Warlord sweep across the land, chasing after promises of plunder. And, in the face of chaos and uncertainty, the Caliph aims to preserve order through military might.

Will you successfully navigate this web of rivalries and rise to prominence, or will you squabble with your lesser adversaries and fade into obscurity?

FROM THE CREATOR OF FROSTGRAVE, JOSEPH A. McCULLOUGH

STARGRAVE: THE LAST PROSPECTOR

Author: Joseph A. McCullough Illustrators: Michele Giorgi Available: April 2022 ISBN: 9781472847720 Price: £20 / \$30 / CAN \$40 Format: Paperback

The second supplement for *Stargrave* offers a host of new scenarios and rules for gaining political backing as you fight across the ravaged galaxy.

The Dahlgren Belt was once a vast asteroid mining operation that supplied the entire sector with rare metals and various elemental fuels. However, the isolation of the Last War caused the corporation to wither, and the various outposts and colonies were eventually left to look after themselves. Some became true collectives, or limited democracies, while others have fallen to the rule of gangsters, warlords, and despots. In all cases, the limited resources of air and organic material has made life difficult.

In this supplement for *Stargrave*, the crews must travel from asteroid-to-asteroid, and even down to the system's single, barely inhabitable planet, searching for a man who claims to have discovered a 'big score'. During their journey, players will fight through numerous different environments – including asteroid mines, zero gravity, and even hellish jungle. Captains must curry favour with the various small political factions that hold power in the Belt. Only through a combination of wits, diplomacy, and weapons can players hope to reach the last prospector and gain a share of his claim...

FROSTGRAVE: BLOOD LEGACY

Author: Joseph A. McCullough ISBN: 9781472841599

Price: £20 / \$30 / CAN \$39.99 Format: Paperback

In the days of ancient Felstad, vampires kept to the shadows their small numbers no match for the power of the city's wizards. But when the cataclysm struck, the wizards were destroyed, while the deathless vampires went into a frozen hibernation. Now, as the city thaws, so too do its undead inhabitants. While giants used to live out of reach to the far north, in the intervening millennium, they have descended on the city in large numbers. Their blood is like an elixir to the vampires, filling them with strength and magical power. A new war is forming between these two ancient races, and once again, the wizards of Frostgrave are caught in the middle.

This supplement for *Frostgrave: Second Edition* presents greatly expanded information about the vampires and the giants, rules for a new type of soldier, and two mini-campaigns to challenge highlevel wizards.

GRAN MECCANISMO

Clockpunk Roleplaying in Da Vinci's Florence

Author: Mark Galeotti Illustrators: Teresa Ramos & Randy Musseau Available: May 2022 ISBN: 9781472849670 Price: £25 / \$35 / CAN \$48 Format: Hardback

What if all da Vinci's inventions had worked as he had hoped? What if they had been enthusiastically adopted and that their successes had sparked a different kind of industrial revolution?

Gran Meccanismo is a roleplaying game of swashbuckling swordplay as an army of robot knights marches past on their way to the Vatican. Players are patricians, mercenaries, spies, and inventors amidst a Renaissance Italy where they may find themselves crossing wits with Machiavelli, avoiding the dangerous charms of Lucretia Borgia, and hearing Christopher Columbus tell you about the new world he has discovered...
